

PORSCHE

**Emotions from start to end.**

Porsche Leipzig Event packages.

## The recipe for a perfect day. Culinary Porsche.

Whether a Pole Position Brunch, Carrera Lunch or Carrera Dinner. Alongside first-rate cuisine, your visit includes some really special insights into the world of Porsche. And views: a spectacular 360° view of the entire Porsche site, for example. While you enjoy top Porsche gastronomy in the Customer Centre restaurant, you can watch what is happening on our FIA-certified Porsche on-road circuit. Or take a tour of our exhibition of current and historic Porsche models. Our factory tour takes you behind the scenes of Porsche production. Experience up close how much passion and precision goes into creating a Porsche. And discover why we celebrate a 'marriage' every day. An experience that you should not miss. For this reason, the factory tour is always a firm fixture of our driving programmes. However, it can also be booked without other programme items. But who would want to let so much slip past?

# We bring your dreams to the tarmac. Porsche on-road.

Please buckle up. It is spectacular on our FIA-certified Porsche on-road circuit. Where tributes to world-renowned bends already await you. Mobil 1 S, Parabolica or Bus Stop – are united all together on one track. You decide which Porsche model you would like to take to the starting grid. Accelerate, break, maintain the racing line. An indescribable feeling. Regardless of whether you want to gain experience at the limits as co-pilot at the side of a racing professional. Or sit at the steering wheel yourself. Either way, you won't want to get out. Pulse acceleration and goosebumps are guaranteed.

## **There are no obstacles. Only challenges. Porsche off-road.**

Do you like water, mud and muck? In short: an adventure away from the tarmac? Then explore our off-road track with the Cayenne. This is where it goes steep downhill and flying high. Some parts are really inclined and pretty bumpy. Many off-road modules are waiting to be overcome with great precision as well as great courage. Of course, we won't leave you on your own in these sections. An experienced instructor will provide you with tips and tricks. And don't be surprised by curious bystanders. As our aurochs and wild horses will definitely be watching you from a safe distance. They are part of the off-road track's unique grazing concept. Do you accept the challenge?

# One day. Countless adventures. Discover Porsche.

Porsche Leipzig offers so many facets that you cannot make your mind up. You don't even have to. As the Discover Package lets you explore the complete world of experience at Porsche Leipzig. You take part in a factory tour. Visit the exhibition of current and historic Porsche models in the Customer Centre and enjoy a stylish meal in our restaurant — including an impressive view of two particularly exciting goals for the day: our on-road circuit and the factory's own off-road track. You can take to the grid yourself. On-road and off-road. A whole day brimming with Porsche.
